OCCUPATIONAL SKILLS PROGRAMME

General Residential Repairer

Occupational Skills Programme: General Residential Repairer

Programme / Qualification ID	NQF Level	Credits	Programme Type
SP-191202	3	31	Occupational Skills Programme

01 Programme Overview

General Residential Repairer focuses on the practical skills used to inspect, maintain and repair residential buildings. The programme covers routine building maintenance, minor construction repairs, surface finishing and the installation of fixtures. It also includes preventative maintenance and the safe use of construction tools. These areas bring together residential property upkeep and repair activities, with workplace health and safety practices forming part of the learning content.

02 Key Learning Outcomes

- Inspect residential buildings.
- Replace damaged fixtures.
- Repair doors and windows.
- Carry out preventative maintenance.
- Safely operate construction tools.
- Apply workplace health and safety practices.
