Open for New Enrolments

Programme / Qualification ID	NQF Level	Credits	Programme Type
99714	5	256	Occupational Certificate

01 Programme Overview

The Occupational Certificate: Safety, Health and Quality Practitioner prepares learners to contribute effectively to occupational health and safety management within the workplace. The programme develops the knowledge and practical competence required to identify and control workplace hazards, support risk-management activities, participate in the implementation of occupational health and safety systems, monitor workplace conditions and contribute to continuous improvement of organisational health and safety performance.

02 Key Learning Outcomes

- Identify workplace hazards and contribute to controlling occupational health and safety risks.
- Participate in workplace risk assessment and risk-management processes.
- Support the development and implementation of occupational health and safety systems.
- Monitor workplace health and safety performance.
- Analyse incidents, inspections, audits and related safety information.
- Recommend corrective and preventative actions that contribute to continuous improvement.

Safety, Health & Quality Practitioner / 99714
